E-mail:	
Grant Amount Requested (not to exceed \$2000):	
<p>The purpose of this request for proposals is to provide funding and technical assistance for communities to implement a walk ability and bike ability checklist. The checklist will help prepare a grant submission to fund a community Safe Routes to School (SRTS) Program through the Kansas Department of Transportation SRTS Program. It will also identify opportunities that exist in your community so you can take action now to help set priorities and move forward until additional funding is available.</p>	
Please list community partners collaborating on this project:	

Describe the target population of the proposed project:

Describe the short-term outcome(s) expected for this project. Create a logic model that describes the proposed pathway to the outcome by listing Inputs, Activity(ies), Outputs, and the Short-term Outcome(s).

Create a work plan for the proposed project. Include a timeline and identify who will be responsible for execution of each step.

Describe how you will evaluate the proposed project, i.e., how will you know that the outcome(s) is/are achieved?

Budget justification (please provide expense details):
